Chetan Bhosale

Product Engineer · Founding Engineer at Linkrunner

chetanbhosale810@gmail.com github.com/ChetanBhosale linkedin.com/in/chetan-bhosale-092868231 Bengaluru, India

Product engineer who works from customer conversation to production. Experienced across product discovery, interface engineering, distributed systems, analytics, mobile SDKs, and cloud infrastructure. Former sales professional who learned to build the products customers were asking for.

EXPERIENCE

Linkrunner

OCT 2025 — PRESENT

Founding Engineer

AI-powered mobile measurement platform · ₹5 Cr pre-seed led by Titan Capital · Trusted by 100+ growth teams

- Own the customer-to-release product loop; rebuilt the core dashboard **0 → 1 in 20 days** with customers, design, and engineering.
- Own SDKs across Android, iOS, React Native, Flutter, and Cordova; built tooling that cut integration testing from **~1 hour to ~5 minutes**.
- Migrated analytics from PostgreSQL to ClickHouse, taking key queries from seconds to milliseconds and saving up to **$8K/month**.
- Helped evolve the Node.js monolith into Go/gRPC services processing **25M+ monthly requests**; moved SQS → Kafka and AWS → GCP.

TransErg LLP → Petpooja

JUN 2024 — SEP 2025

Software Engineer

Joined TransErg and continued at Petpooja after acquisition · 150K+ businesses · 7M+ company orders/day · ₹137 Cr Series C

- Turned restaurant and hotel requirements into an online ordering product handling **~10K real orders/day**; also built custom-domain infrastructure for branded storefronts.
- Migrated manually managed EC2 services to Docker and then production Kubernetes on EKS.
- Led Petpooja Studio and its **3M+ image library** delivered to Zomato and Swiggy, coordinating specifications and SLAs.
- Deployed a self-hosted LLM pipeline for image tagging, cleanup, and quality checks at scale.

Hire My Assistants

DEC 2022 — JUN 2023

Sales & Marketing → Full-stack Engineer

- Managed campaigns and negotiations for 10 realtor clients, then built a CRM used by **1K+ realtors** from the pain heard on sales calls.
- Built property experiences serving approximately **100K visitors/day**.

CORE SKILLS

PRODUCT

Customer discovery · Requirement shaping · Design partnership · End-to-end ownership

LANGUAGES & INTERFACE

TypeScript · Go · JavaScript · Python · Next.js · React · React Native · Flutter

SYSTEMS & DATA

Node.js · gRPC · Kafka · WebSockets · PostgreSQL · ClickHouse · Redis

CLOUD

Kubernetes · Docker · AWS · GCP · Grafana · Prometheus

SELECTED PROJECTS

Nakama

Production-like Kubernetes and database sandboxes for AI agents and security testing, using real masked data.

geo.repair

26-point AI crawler audit with an agent that applies fixes, validates builds, and opens pull requests.

OmegleForTech

GitHub-verified 1:1 developer video matching built with WebRTC and real-time presence.

EDUCATION

St. Xavier's College, Ahmedabad

Bachelor of Computer Applications

2021 — 2024 · 7.9 CGPA

BEYOND WORK

3× national karate gold medalist. Also interested in music, drawing, gaming, cooking, and travel.
